PRESENTS

FLOWJO

Flow Cytometry Data Analysis

Apply by 30th April 2019

Instructor: FlowJo, LLC
Organizer: CRG/UPF Flow Cytometry Unit
Date: 6th June 2019, 10:00h - 13:00h (Basic), 14:30h - 17:30h (Advanced),
           7th June 2019, 10:00h - 13:00h (Basic), 14:30h - 17:30h (Advanced)
Maximum nº of participants for each course: 19

FlowJo is an advanced software package which contains the most necessary tools for any type of flow cytometry data analysis.
These two level practical courses are intended for researchers and technicians wishing to increase their level of the data analysis using FlowJo software.

The training is divided in two independent modular courses
- Basic: Exploring the FlowJo workspace. From loading the samples to present your analysis.
- Advanced: Exploring High dimensional data analysis.

Either option can be chosen (one of them or both) depending on the previous knowledge/experience with the software.
Price of each course is 100 euros (VAT included).
